

Ecolift XL backwater lifting st. Duo, 1 motor flap, SPF 1400-S1, Taper

Article information

Item no.: 8741064 GTIN: 4026092070734

Price group: 60

Advantages

- Wastewater drainage without interruption, even if a power failure occurs, as long as there is no backwater
- low pump use
- minimised noise emissions

Description

The backwater lifting station for faecal and non-faecal wastewater is equipped with two submersible pumps, one motor-driven and one mechanical closure system and a backflow preventer. The collection tank made of permanently resistant polymer (PE) has an enclosed pump tank. Quick-release closures enable the integrated components to be removed easily. Normally, draining takes place via the natural fall to the sewer. Backwater is detected by an optical probe, which causes the motor-driven closure system to close automatically and there is no longer free passage to the sewer. During the backwater phase, the water drains via a pressure pipe, which carries the wastewater into the sewer. The pressure pipe is a welded PE pipe; with pump SPF 4500, the pressure pipe must also be continued up to a pressure release chamber. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface. The KESSEL modular system provides different upper sections and engineering chamber options as accessories.

Variant

Note on installation depth: Version with lowest installation height

Type of system: duo pump

Shut-off valve: Shut-off valve made of polymer

Passage seal for conduit pipe (DN): 100 Passage seal for ventilation pipe (DN): 70

Pump control: Control unit

Backflow preventer: integrated Pressure pipe connection: horizontal

Motor-driven backwater flaps: 1
Mechanical backwater flaps: 1

General characteristics

Colour: black

Standard: ÖNORM B 2501

Type of wastewater: for wastewater with and without sewage

Installation situation: underground installation

Delivery state: Pre-mounted for final assembly on site (pumps and

sensor system must be fitted on site and control

unit must be connected)

Backwater protection: Type 3 Approval: Z-53.2-493

Dimensions

Net weight: 164 kg
Gross weight: 188 kg
Groundwater resistant from lower edge of base 3000 mm

section:

Vertical drop between inlet and outlet:

Length:

1379 mm
Width:

1200 mm
Height:

785 mm
Packaging dimension:

length
Packaging dimension:

width
Packaging dimension:

Tank/drain body

Nominal pressure (PN): 10
Pressure pipe connection (DN): 80
Pressure pipe connection (OD): 90 mm

Channel: continuous channel

Venting connection (DN): 70
Distance pipe bottom outlet to tank bottom: 120 mm
Distance pipe bottom inlet to tank bottom: 135 mm
Distance from inlet pipe invert to top of tank: 645 mm

Number of outlets: 1

Outlet nominal size (DN): 150 mm
Inlet nominal size (DN): 150 mm
Number of inlets: 1

Clear width of tank (LW): 1000 mm
Clear width of entry (LW): 800 mm
Pumping volume: 20 l
Tank volume: 65 l

Pumping device

Pump: SPF 1400-S1 EcoXL

Number of pumps: 2

28 kg Weight, pump: Connection type: coded plug Rated current: 7,3 A Protection class: F Insulation class:

Protection class (pump): IP 68 (3m/48h) Temperature monitoring: integrated 40 °C

0,99

Max. temperature (permanent) of conveyed

material:

Cos phi - power factor:

Max. pumping capacity: 28 m³/h Max. pumping height: 7.5 m Speed: 1420 U/min Power P1: 1.6 kW Power P2: 1.1 kW S1 Operating mode: Type of fuse required (electrical protection): C 16 A

Type of pump connection cable: H07RN-F 7G 1.5 mm² Impeller type: Multi-vane impeller

Free passage: 40 mm Length of mains cable for pump: 10 m

Control

Multi-line display:

Battery buffering:

Control unit: Comfort Plus

5 W Standby power:

Alarm sensor: optical probe Level measurement instrument: Immersion pipe pneumatic Type of level measurement: Protection class control unit: IP 54 Operating voltage: 230 V Connection type: coded plug Length of mains cable for control unit: 1,6 m Potential-free contact: yes GSM interface: yes USB interface: yes Log book function: yes

Self-diagnosis system (SDS): yes Type of fuse required (electrical protection): C 16 A
