

## Pump system Aquapump Retrofit Duo, GTF 600, submersible pressure switch

## **Article information**

Item no.: 8744000 GTIN: 4026092103302 Price group: 60

## Description

The pump system for installation in existing collection tanks for wastewater without sewage is equipped with two submersible pumps, a backflow preventer and a manual locking device. The polymer profile (PE) is used to mount and fix the pumping station. Quick-release closures enable easy removal of the pumps. The station is controlled by a user-friendly control unit, which is optionally integrated in the building management system via a potential-free contact, or alarm and collective fault messages can be output via a GSM interface.
